Technologies: React, Codeigniter, Git, JQuery, Studio3t, Unix, Postmen, Tailwind CSS, Next.js

Tools: npm, yarn, bit

PROJECTS

React.js	**KNOWAI**	**https://know-ai.netlify.app/**

Macro SaaS startup revolutionizing article summarization with OpenAI's GPT-3. Key features include a modern UI, GPT-3 integration, Redux Toolkit for state management, and more. Explore Know.AI at know-ai.netlify.app. GitHub repository available at github.com/devrohitc/Know.ai.

React.js	**KEEPER APP**	**devrohitc.github.io/Keeper/**

Keeper app is a short note-making app. Gained exceptional knowledge of React features such as React Hooks, Managing a Component Tree, React State, React Forms, event handlers in React, React Props, to develop a responsive and intuitive UI.

JavaScript	**SIMON-GAME**	**devrohitc.github.io/SimonGame/**

This is Your old School Simon game that challenges your memory. Created this game using JavaScript and jQuery. It has a clean and intuitive user interface that allows players to start the game, track their score, and repeat the patterns.

Frontend CSS	**SidCup Family-golf**	**devrohitc.github.io/sidcup-family-golf/**

An Frontend website project that demonstrates various types of CSS animations.

EDUCATION

3/2019 - x/2022	**PES Modern College of Arts, Commerce and Science**	**BSC in Computer Science**

Undergraduate Coursework : Operating Systems, DBMS, Calculus, Computer Network, Client-side Web Development, Compiler Construction, OOPS, JAVA, C Programming, PHP.

x/2017 - x/2019	**R.R. Shinde Jr. College**	**Jr. COllege**

12th Science HSC Board

x/2023 - x/2023	**WEB Development Complete Bootcamp**	**Course**

HTML, CSS, Javascript, Node, React, PostgreSQL, PHP, MangoDB, Express

EXPERIENCE

2023 – 2023	**Webwide IT Solutions LLP**	**Web Developer**

- Developed and maintained back-end web applications using PHP, MySQL, and various PHP frameworks, including Laravel and CodeIgniter.
- Collaborated with the front-end development team to create user-friendly and responsive web interfaces.
- Utilized strong knowledge of HTML5, CSS3, JavaScript, and jQuery to enhance the user experience.
- Participated in Agile development methodologies, ensuring timely project delivery and high-quality code.
- Communicated effectively with cross-functional teams and clients to understand and meet project requirements.
- Leveraged PHP and MySQL to optimize back-end functionality and database management.
- Worked collaboratively with team members, consistently meeting project milestones and client expectations.
- Designed and implemented responsive front-end interfaces, improving the overall user experience.
